Item $\qquad$

Models
DishStar HT

## Standard Features

- Automatic tank fill
- Push button start
- Fill and Dump design
- Built-in booster heater with Sani-Sure ${ }^{\text {TM }}$ final rinse system
- Labyrinth type door design
- Automatic pumped drain for floor and wall drain installations
- Stainless steel wash pump
- Solid state controls
- Deliming cycle
- Simplified controls allow easy access for operation and service
- Door switch
- One (1) each peg and combination rack included
- Above water scrap basket
- Built-in chemical pumps and priming switches

## Options

$\square$ Water Hammer ArrestorPressure RegulatorBack PanelDrain Water Tempering KitScale Prevention System (SPS)Replacement Cartridge for SPS
$\square$ Casters (adds 3/4" to height)Tie Down

## Accessories

36-Compartment Rack$4-1 / 8^{\prime \prime}$ tall ( 105 mm )5-5/8" tall ( 143 mm )$\square 7$ " tall ( 178 mm )
Combination Rack
Peg Rack
Machine Stand
$\square 6^{\prime \prime}(152 \mathrm{~mm})$ high $\square 18^{\prime \prime}(457 \mathrm{~mm})$ high

## Specifications

- Uses 1.1 gallons (4.2 liters) of water per rack
- Cleans 30 (24)* racks per hour
- Two-minute automatic cycle
- Powerful 1 hp wash pump motor
- Fresh water rinse eliminates wash water contamination
- Air insulated between body and stainless steel housing
- Durable stainless steel construction
- 1-year parts and labor warranty

## Notes:

A vent hood is not recommended above the Jackson DishStar HT as it does not produce excessive vapors. Always check with the local building code to know what type of ventilation is required for commercial dish machine installations in your area.

Normal operation of the DishStar HT generates steam that may escape from the door. Materials such as wood laminate, veneers, etc. are unsuitable for use in areas exposed to dishwasher steam and detergents. Stainless steel or other moisture-resistant shields are recommended for surfaces adjacent to DishStar HT sides and top.
